## Conflict Minerals Policy

---

### Statement on Conflict Minerals

Rambus is committed to acting in a socially and environmentally responsible manner and is guided by integrity along with a set of ethical principles and standards. This responsibility extends throughout our diverse eco-system of suppliers. The purpose of the statement below is to reaffirm the Company's position Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act").

Rambus recognizes the adverse effects associated with mining columbite-tantalite, cassiterite, gold, wolframite or their derivatives (collectively referred to as "conflict minerals") in the Democratic Republic of the Congo and adjoining countries. Rambus is committed to sourcing minerals for our products in a manner that does not directly finance armed groups perpetrating serious human rights abuses in the Democratic Republic of the Congo or any adjoining country. In addition, Rambus is committed to complying with Section 1502 of the Dodd-Frank Act and with a nationally or internationally recognized framework for conflict minerals due diligence, as applicable. Rambus expects our suppliers to exercise due diligence on the source and chain of custody of conflict minerals in the products they manufacture, to make their due diligence measures and information available to Rambus on request, and to source minerals from responsible sources that do not contribute to human rights abuses in the Democratic Republic of the Congo and adjoining countries. Rambus will comply with the reporting requirements of Section 1502 of the Dodd-Frank Act, including making information regarding conflict minerals available to the public.
