

Rambus Vice President Christophe Chevallier to Keynote at Non-Volatile Memories Workshop

SUNNYVALE, Calif.--(BUSINESS WIRE)-- Rambus Inc. (NASDAQ:RMBS):

Christophe Chevallier (Photo: Business Wire)

Who: Rambus Inc. (NASDAQ:RMBS)

Where: Non-Volatile Memories Workshop 2012
University of California, San Diego
La Jolla, CA

When: March 4 - 6, 2012, 9:00am — 10:00am PT

The 2012 Non-Volatile Memories Workshop will bring together scientists and engineers from industry and academia who are working on advanced non-volatile storage devices and systems. The goal is to facilitate the exchange of ideas, insights, and knowledge within this broad community of practitioners and researchers. The Workshop also helps to foster new collaborations that can propel future progress in the design and application of non-volatile memories. Tuesday, March 6, 2012

Title: Developments and Challenges for Next Generation Terabit Non Volatile Memories

Speaker: Christophe Chevallier, Vice President, NVM / Storage Division, Rambus

In his keynote, Christophe will explore the leading contenders for next generation, Terabit density, non-volatile memories, with a focus on emerging technologies intended for mass storage.

BIOGRAPHY: Christophe Chevallier is Vice President of Product Development in the NVM/Storage division at Rambus. He was a co - founder of Unity Semiconductor Corporation, recently acquired by Rambus. He joined Unity in 2002 to develop stacked cross-point arrays architectures and technologies. Christophe designed one of the world's first low voltage NOR Flash products at non - volatile memory pioneer Catalyst, Inc. and later was a founding technical member in the creation of Micron Technology's Flash business. He is a holder of more than two hundred patents, and is considered an industry leading expert in non-volatile memory IP. He graduated with a BSEE from IMT/Universities of Aix - Marseille, France, and an MS in Electrical Engineering from Stanford University.

About Rambus Inc.

Rambus is one of the world's premier technology licensing companies. Founded in 1990, the Company specializes in the invention and design of architectures focused on enriching the end-user experience of electronic systems. Rambus' patented innovations and breakthrough technologies help industry-leading companies bring superior products to market. Rambus licenses both its world-class patent portfolio, as well as its family of leadership and industry-standard solutions. Headquartered in Sunnyvale, California, Rambus has regional offices in North Carolina, Ohio, India, Germany, Japan, Korea and Taiwan. Additional information is available at www.rambus.com.
