### Forward Looking Statements

---

Certain statements contained herein, other than historical fact, may be considered “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are intended to be covered by the safe harbor provided by the same. These statements are based on management’s current expectations and beliefs and are subject to a number of trends and uncertainties. No forward-looking statement is intended to, nor shall it, serve as a guarantee of future performance. You can identify the forward-looking statements by the use of words such as “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “outlook,” “plan,” “potential,” “predict,” “project,” “seek,” “should,” “will” and other similar terms and phrases, including references to extensions of the Company’s term loan and revolving line of credit. Forward-looking statements are subject to various risks and uncertainties and factors that could cause actual results to differ materially from the expectations of Sila Realty Trust, Inc. (the “Company”), and investors should not rely on forward-looking statements since they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond the Company’s control and could materially affect the Company’s results of operations, financial condition, cash flows, performance or future achievements or events, including those described under the section entitled Part I, Item 1A. “Risk Factors” of the Company’s 2022 Annual Report on Form 10-K. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise, except as required by law.

### Non-GAAP Measures

---

This presentation contains certain financial information not derived in accordance with the United States generally accepted accounting principles (GAAP). These items include, but are not limited to, earnings before interest, income taxes, depreciation and amortization (EBITDA), EBITDA for real estate (EBITDA<sub>RE</sub>), funds from operations (FFO), core funds from operations (Core FFO), adjusted funds from operations (AFFO), liquidity, net debt, net operating income (NOI), and cash NOI, as well as ratios derived from the foregoing. These measures (and the methodologies used to derive them) may not be comparable to those used by other companies. Refer to the glossary for a detailed explanation of these terms and reconciliations to the most directly comparable GAAP measures, as well as others appearing in the supplement. Management considers each item an important supplemental measure of operating and financial performance and believes they are frequently used by interested parties in the evaluation of real estate investment trusts. These measures should not be considered as alternatives, or superior measures, to net income or loss as an indicator of the Company’s performance and should be considered only as a supplement to net income or loss and cash flows from operating, investing or financing activities as measures of profitability and/or liquidity, computed in accordance with GAAP.

### Unaudited Financial Information

---

All quarterly information presented in this supplement is unaudited and should be read in conjunction with the Company’s audited consolidated financial statements (and the notes thereto) included in the Annual Report on Form 10-K for the year ended December 31, 2022, as filed with the SEC on March 16, 2023.

### Adjusted Fair Value of Real Estate Investments

Adjusted fair value of real estate investments is calculated using the real estate values determined as of the most recent NAV (as defined below), adjusted for property acquisitions and dispositions, major capital expenditures, and impairments.

### Contractual Annualized Base Rent

The sum of each tenant's contractual base rent in the last month of the period multiplied by twelve, unless otherwise specified.

### Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) and Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate (EBITDAre)

These supplemental non-GAAP performance measures are defined as net income or loss, calculated in accordance with GAAP, adjusted for interest expense, income tax expense (benefit), depreciation and amortization. EBITDAre also includes adjustments for impairments of real estate assets and gains or losses from the disposition of properties. EBITDAre is a definition promulgated by the National Association of Real Estate Investment Trusts (NAREIT). The Company believes these metrics are important indicators of the Company's operating performance and its ability to service debt.

The following is a reconciliation of net income (loss) attributable to common stockholders, which is the most directly comparable GAAP financial measure, to EBITDA and EBITDAre for the following quarterly periods (amounts in thousands):

### Funds From Operations (FFO), Core Funds From Operations, and Adjusted Funds From Operations (AFFO)

FFO, a non-GAAP financial measure, is calculated consistent with NAREIT's definition, as net income (loss) (calculated in accordance with GAAP), excluding gains (or losses) from sales of real estate assets and impairments of real estate assets, plus depreciation and amortization of real estate assets, and after adjustments for unconsolidated partnerships and joint ventures. It should be noted, however, that other REITs may not define FFO in accordance with the current NAREIT definition or may interpret the current NAREIT definition differently than the Company does, making comparisons less meaningful. The Company calculates Core FFO by adjusting FFO to remove the effect of items that are not expected to impact its operating performance on an ongoing basis and consider it to be a useful supplemental measure because it provides investors with additional information to understand our sustainable performance. These include severance arrangements, write-off of straight-line rent receivables related to prior periods, amortization of above- and below-market leases (including ground leases), and loss on extinguishment of debt. Other REITs may use different methodologies for calculating Core FFO and, accordingly, the Company's Core FFO may not be comparable to other REITs. In addition to FFO and Core FFO, the Company uses AFFO as a non-GAAP supplemental financial performance measure because the Company believes it provides to investors appropriate supplemental information to evaluate the ongoing operations of the Company. AFFO is a metric used by management to evaluate the Company's dividend policy. The Company calculates AFFO by further adjusting Core FFO for the following items: deferred rent, current period straight-line rent adjustments, amortization of deferred financing costs and stock-based compensation. Other REITs may use different methodologies for calculating AFFO and, accordingly, the Company's AFFO may not be comparable to other REITs.

FFO, Core FFO and AFFO should not be considered to be more relevant or accurate than the GAAP methodology in calculating net income (loss) or in its applicability in evaluating our operational performance. The method used to evaluate the value and performance of real estate under GAAP should be considered as a more relevant measure of operating performance and considered more prominent than the non-GAAP FFO, Core FFO and AFFO measures and the adjustments to GAAP in calculating FFO, Core FFO and AFFO.

The following is a reconciliation of net income (loss) attributable to common stockholders, which is the most directly comparable GAAP financial measure, to FFO, Core FFO and AFFO for the following quarterly periods (amounts in thousands):

## Glossary

### Liquidity

A financial metric that represents the outstanding cash and cash equivalents combined with the remaining borrowing base availability on the Company's credit facility at the end of the period.

### Net Asset Value (NAV)

NAV is determined by the board of directors, at the recommendation of the Company's audit committee, and based on the estimated value of the Company's assets, less the estimated value of the Company's liabilities, divided by the number of shares outstanding on a diluted basis. This valuation is performed in accordance with the provisions of Practice Guideline 2013-01, Valuations of Publicly Registered Non-Listed REITs, issued by the IPA in April 2013, in addition to guidance from the SEC.

### Net Debt

Net debt, a non-GAAP financial measure, represents principal debt outstanding less cash and cash equivalents. Net debt provides useful information by calculating and monitoring the Company's leverage metrics.

The following is a reconciliation of total credit facility debt, net, which is the most directly comparable GAAP financial measure to net debt, for the following quarterly periods (amounts in thousands):

### Net Operating Income (NOI), Cash NOI and Same Store Cash NOI

NOI, a non-GAAP financial measure, is defined as rental revenue, less rental expenses, on an accrual basis. Cash NOI is calculated to exclude the impact of GAAP adjustments to rental revenue and rental expenses, consisting of straight-line rent adjustments, net of write-offs, amortization of lease related intangibles and ground leases, and intercompany property management fees, then including deferred rent received in cash, and is used to evaluate the cash-based performance of the Company's real estate portfolio. Same store cash NOI is calculated to exclude non-same store cash NOI. The Company believes that NOI and Cash NOI both serve as useful supplements to net income (loss) because they allow investors and management to measure unlevered property-level operating results and to compare these results to the comparable results of other real estate companies on a consistent basis. The Company uses both NOI and Cash NOI to make decisions about resource allocations and to assess the property-level performance of the real estate portfolio. As an indicator of financial performance, neither metric should be considered as an alternative to net income (loss), determined in accordance with GAAP. The Company believes that in order to facilitate a clear understanding of the consolidated historical operating results, both metrics should be evaluated in conjunction with net income (loss) as presented in the consolidated financial statements included on the Company's Annual Report on Form 10-K filed with the SEC on March 16, 2023.

The following is a reconciliation from net income (loss) attributable to common stockholders, which is the most directly comparable GAAP financial measure, to NOI, Cash NOI and Same Store Cash NOI, for the following periods (amounts in thousands):

## Glossary

---

### Remaining Lease Term

---

The number of periods remaining of each tenant's lease, calculated on a weighted average basis on annualized base rent.

### Rent Escalation

---

The amount of base rent increases that are included within each tenant's lease, calculated on a weighted average basis on annualized base rent.

### Same Store Properties

---

Operating properties that were owned and operated for the entirety of all calendar periods being compared, excluding properties under development, re-development, or classified as held for sale. To evaluate properties on a comparable basis, management analyzes metrics of same store properties in order to assess the core operations of the portfolio. By evaluating same store properties, management is able to monitor the operations of the Company's existing properties for comparable periods to measure the performance of the current portfolio and the effects of new acquisitions and dispositions on net income (loss).

### Total Real Estate Investments at Cost

---

Represents the contractual purchase price of real estate properties acquired, including capitalized acquisition costs, and capital expenditures incurred since acquisition, reduced by the cost basis of properties sold.
