

## Covalon to Present at the Planet MicroCap Showcase: VEGAS on April 23, 2025

MISSISSAUGA, Ontario – April 17, 2025 – (BUSINESS WIRE) – Covalon Technologies Ltd. (the "Company" or "Covalon") (TSXV: COV; OTCQX: CVALF), an advanced medical technologies company, today announced that they will be presenting at the Planet MicroCap Showcase: VEGAS 2025 in partnership with MicroCapClub on Wednesday, April 23, 2025 at 4:30 pm (Local Time -PST).

Brent Ashton, Covalon's CEO will review why Covalon is in the "sweet spot" in the microcap sector as an undervalued, cash rich, profitable healthcare company that to date is very much undiscovered by investors. Key highlights include:

- Financial experts agree that healthcare is a stable and growing industry compared with other sectors
- Patients and healthcare providers continue to deal with unnecessary pain, suffering and even death from largely preventable complications which Covalon's advanced wound care, vascular access and surgical products address - improving lives and avoiding expensive and unnecessary treatment
- Covalon's sales have increased as more and more healthcare providers as well as patients themselves advocate for the use of Covalon's unique and powerful, best-in-class, patented technologies
- With consistent profitability, over \$17 million (\$CAD) of cash on hand, debt free, and strong revenue growth, Covalon is a standout for microcap investors seeking substantial returns
- With the Company recently being recognized as a top-performing organization as both a [2025 OTCQX Best 50 Company](#) and [TSX Venture Top 50 company](#), Covalon has just begun its journey as a high performing microcap public company

"I'm very excited to be presenting at my second Planet Microcap Conference since joining Covalon," said Brent Ashton, Covalon's Chief Executive Officer. "The Vancouver conference last September was standing room only with an audience of mainly Canadian-based investors, and I'm looking forward to meeting with US and international investors at this event."

It is clear that US investors have identified the Canadian microcap market as undervalued and the Company looks forward to discussing Covalon's significant growth opportunity in the healthcare sector – a space that is always in need regardless of where the broader macro-economic cycle sits.
