

## Responsible Supply Chain Policy

Builders FirstSource, Inc. (“Builders FirstSource”) recognizes that the extraction and processing of certain raw materials can have significant social and economic impact on local populations. We are particularly concerned with tin, tantalum, tungsten and gold originating in the Democratic Republic of the Congo or its adjoining countries (“Conflict Minerals”) where revenues generated by their sale may directly or indirectly finance armed conflict. Builders FirstSource does not directly source materials from smelters or mines and only utilizes refined metals in its manufacturing activities.

Builders FirstSource expects all of its suppliers to buy materials from socially responsible sources and to comply with Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act. Builders FirstSource will assess future business with suppliers who are noncompliant with this policy.
