# Builders FirstSource Raises Over \$1.2 Million at its Swing for the Cure Golf Charity Event for The Leukemia & Lymphoma Society

6/5/2023

IRVING, Texas--(BUSINESS WIRE)-- Builders FirstSource, Inc. (NYSE: BLDR) ("Builders FirstSource" or the "Company"), the nation's largest supplier of building products, prefabricated components, and value-added services to the professional market for new residential construction and repair and remodeling, announced today that its annual Swing for the Cure golf charity event raised more than \$1.2 million for The Leukemia & Lymphoma Society (LLS).

Held at TPC Las Colinas from May 31 to June 1, the achievement marks a new record for the event and underscores Builders FirstSource's commitment to supporting the fight against blood cancer. Since its partnership with LLS began in 2006, the Company has raised more than \$9 million to fund critical research, patient support, and advocacy programs aimed at advancing the treatment and cure of blood cancer.

"We are humbled and grateful for the overwhelming support shown by our customers and suppliers in helping us surpass the \$1 million mark," said Dave Rush, CEO of Builders FirstSource. "Together, we are making a tangible difference in the lives of patients and their families."

The event featured former NFL star, cancer survivor, best-selling author, and ESPN analyst Merrill Hoge as its keynote speaker. Guided by his 'Find a Way,' philosophy, Hoge inspired the audience with his story of strength and perseverance in the face of adversity, including his battle with non-Hodgkin's lymphoma, and his strategies for overcoming obstacles to achieve one's goals.

"We extend our gratitude to all those who celebrated, honored, and remembered those affected by blood cancer," said Coker Powell, LLS SVP and Chief Development Officer. "With the continued support and generosity of Builders

FirstSource and its partners, we can work towards achieving a world without blood cancer. Their support directly supports LLS's mission: developing cutting-edge treatments, offering crucial resources to patients and families on their blood cancer journeys, and advocating for healthcare that any patient can access and afford."
