Revvity Highlights its Strong Progress on Sustainability and Workplace Culture in 2024 Impact Report

2024-10-22

WALTHAM, Mass.--(BUSINESS WIRE)-- **Revvity, Inc.** (NYSE: RVTY) today unveils its annual **Impact Report**, a declaration of the Company's sustainability, social and governance strategy, initiatives and performance. The report showcases Revvity's continued evolution and strengthened commitments to creating a lasting, positive impact on the world.

"Whether it's from developing groundbreaking solutions that drive positive health outcomes or through our sustainability initiatives, such as reducing waste and carbon emissions, we are making substantial strides in creating a healthier, cleaner and more inclusive world for generations to come," said Prahlad Singh, president and chief executive officer at Revvity. "The duly named Impact Report represents a purpose-driven shift for Revvity to a holistic, sustainable business approach – one that underlies our approach across the entire company."

The report shares how the Company is positively impacting the environment and society through its responsible business philosophy and operations. Below are several highlights:

- Achieved a -7% reduction in Scope 1 and 2 emissions in 2023, ahead of plan towards achieving longer-term goals.
- Implemented a sustainability due diligence program covering the majority of annual direct material supplier spend.
- Achieved 75% employee satisfaction in 2023 with 85% employee participation in an employee experience survey.

- Maintained approximately 40% female representation across leadership positions.
- Expanded audited gender pay gap collection and analysis to additional countries with further expansion expected over the next 12 months.
- Introduced new corporate policies covering key emerging topics including ethical artificial intelligence, sustainable procurement, and cyber risk management, amongst others.
- Created and funded new Revvity Access STEM Scholarships with Northeastern University and University of California San Diego to help support the development of the next generation of scientists.
