

Trimble Receives Order from U.S. Marine Corps for Construction Equipment

SUNNYVALE, Calif., May 24, 2007 /PRNewswire via COMTEX News Network/ -- SUNNYVALE, Calif., May 24 /PRNewswire-FirstCall/- Trimble (Nasdaq: TRMB) announced today that it has received an order from the U.S. Marine Corps Systems Command to provide survey, grade control and laser leveling systems for its worldwide construction activities. The purchase order is valued at approximately \$8.8 million.

Under the purchase order, Trimble will provide machine control and survey simulation training software, grade control systems, reference station base kits for graders, robotic total stations, automatic self-leveling laser packages, automatic levels, and associated accessories, warranties, and training for Trimble systems used on Caterpillar 130G road graders which will be used by the U.S. Marine Corps Units.

Completion of the work is expected by September 2008.

About Trimble's Engineering and Construction Segment

Trimble, a world leader in GPS, construction lasers, robotic total stations and machine control solutions, is creating a broad range of innovative solutions that change the way construction work is done. Trimble is focusing on the development of technology and solutions in the core areas of surveying, construction and infrastructure. From concept to completion, Trimble's integrated systems streamline jobs and improve productivity.

About Trimble

Trimble applies technology to make field and mobile workers in businesses and government significantly more productive. Solutions are focused on applications requiring position or location-including surveying, construction, agriculture, fleet and asset management, public safety and mapping. In addition to utilizing positioning technologies, such as GPS, lasers and optics, Trimble solutions may include software content specific to the needs of the user. Wireless technologies are utilized to deliver the solution to the user and to ensure a tight coupling of the field and the back office. Founded in 1978 and headquartered in Sunnyvale, Calif., Trimble has a worldwide presence with more than 3,400 employees in over 18 countries.
