## **Trimble Opens Registration for Dimensions 2014 User Conference**

### **Three-Day Action Packed Event for Learning, Collaborating and Networking**

SUNNYVALE, Calif., June 26, 2014 /PRNewswire/ -- Trimble (NASDAQ: TRMB) announced today registration is officially open for its International User Conference—Trimble Dimensions—being held November 3-5, 2014 at the Mirage and the Treasure Island Hotels in Las Vegas. The conference addresses innovations in Agriculture, Construction, Civil Infrastructure, Engineering, Government, Mapping, Natural Resources, Surveying, Telecommunications, Transportation & Logistics and Utilities. Trimble Dimensions Conference has earned the reputation of being one of the most educational and exciting industry events.

Trimble Dimensions provides insight into how information technology can transform the way professionals work by using integrated workflows to increase productivity. Hear how industry colleagues use Trimble's end-to-end technology to easily transform data into intelligent, usable information. Attendees will see first-hand how new tools, processes and ideas can help make a positive impact on their business.

Throughout the conference, attendees will have a variety of opportunities to network with key industry players, nurture existing business relationships, build partnerships and discover how to overcome challenges in today's competitive business environment.

Highlights include over 400 educational sessions including both on-site and off-site immersive training, more than 30 specialized tracks to advance career objectives with many sessions qualifying for Professional Development Hour (PDH) hours, and on-site product demonstrations.

For more information, visit [www.trimbledimensions.com](http://www.trimbledimensions.com) or send an email to [trimble\\_dimensions@trimble.com](mailto:trimble_dimensions@trimble.com). In addition, interested speakers are encouraged to visit the Website to learn more about the conference and submission process. Abstracts can be submitted online at [trimbledimensions.com/call\\_for\\_speakers](http://trimbledimensions.com/call_for_speakers).

#### **About Trimble**

Trimble applies technology to make field and mobile workers in businesses and government significantly more productive. Solutions are focused on applications requiring position or location—including surveying, construction, agriculture, fleet and asset management, public safety and mapping. In addition to utilizing positioning technologies, such as GPS, lasers and optics, Trimble solutions may include software content specific to the needs of the user. Wireless technologies are utilized to deliver the solution to the user and to ensure a tight coupling of the field and the back office. Founded in 1978, Trimble is headquartered in Sunnyvale, Calif.
