BuildingPoint Dealer Established in Canada

BuildingPoint Canada Joins the First Fully Dedicated Global Distribution Network for Technologies Spanning the Design-Build-Operate (DBO) Lifecycle

SUNNYVALE, Calif., Jan. 11, 2016 /PRNewswire/ -- Trimble (NASDAQ: TRMB) announced today that a BuildingPoint[®] dealer has been established in Canada. BuildingPoint Canada joins the growing BuildingPoint dealer network that provides focused sales and services with a portfolio of Trimble software and hardware solutions for the Design-Build-Operate (DBO) lifecycle of buildings. With locations in Vancouver, Montreal and Toronto, BuildingPoint Canada will serve architects, engineers and contractors across the DBO lifecycle of a building in Canada.

BuildingPoint dealers represent Trimble Buildings' solutions—a portfolio of synergistic hardware, software and service offerings that allow users to create and transfer constructible models throughout the DBO lifecycle. Trimble is dedicated to transforming the planning, design, construction and operation of buildings through advanced, accessible, intuitive technologies. Trimble Buildings' solutions provide an unprecedented capability to improve productivity, schedule adherence and cost discipline through tighter coordination, improved project transparency and collaboration—enabling stakeholders to realize greater agility, efficiency and insight.

Trimble is establishing a network of BuildingPoint dealers in the Americas, Europe, Middle East and Africa and Asia Pacific regions. Experienced professionals in each regional BuildingPoint will support users in adopting the right technology solution for each project. This support will consist of a combination of hardware and software, consulting, virtual design and construction services, personalized training and technical support.

About Trimble

Trimble applies technology to make field and mobile workers in businesses and government significantly more productive. Solutions are focused on applications requiring position or location—including surveying, construction, agriculture, fleet and asset management, public safety and mapping. In addition to utilizing positioning technologies, such as GPS, lasers and optics, Trimble solutions may include software content specific to the needs of the user. Wireless technologies are utilized to deliver the solution to the user and to ensure a tight coupling of the field and the back office. Founded in 1978, Trimble is headquartered in Sunnyvale, Calif.
