

## Trimble Announces Second Quarter 2023 Results

Aug 03, 2023

- Record annualized recurring revenue of \$1.88 billion, up 14 percent on an organic basis
- Second quarter total revenue of \$994 million, up 6 percent on a year-over-year basis, up 3 percent year-over-year on an organic basis
- GAAP gross margin of 60.8 percent and non-GAAP gross margin of 64.2 percent

WESTMINSTER, Colo., Aug. 3, 2023 /PRNewswire/ -- Trimble Inc. (NASDAQ: TRMB) today announced financial results for the second quarter of 2023.

### Second Quarter 2023 Financial Highlights

- Revenue of \$993.6 million, up 6 percent on a year-over-year basis, up 3 percent year-over-year on an organic basis
- Annualized recurring revenue ("ARR") was \$1.88 billion, up 24 percent year-over-year, up 14 percent on an organic basis
- GAAP operating income was \$93.6 million and non-GAAP operating income was \$231.0 million
- GAAP net income was \$44.6 million and non-GAAP net income was \$159.0 million
- Diluted earnings per share ("EPS") was \$0.18 on a GAAP basis and \$0.64 on a non-GAAP basis
- Adjusted EBITDA of \$251.5 million, 25.3 percent of revenue

### Executive Quote

"Record annualized recurring revenue of \$1.88 billion and gross margin of 64.2 percent in the second quarter demonstrates execution of our Connect and Scale strategy," said Rob Painter, Trimble's president and chief executive officer. "Our second quarter results demonstrate how Trimble technology enhances productivity and sustainability outcomes for our customers."

### Forward Looking Guidance

For the full-year 2023, Trimble now expects to report revenue between \$3,845 million and \$3,925 million, GAAP EPS of \$1.22 to \$1.37, and non-GAAP EPS of \$2.57 to \$2.73. The full-year 2023 GAAP EPS assumes a tax rate of 18.0 percent, and the non-GAAP EPS assumes a tax rate of 17.5 percent. Both GAAP and non-GAAP EPS assume approximately 250 million shares outstanding.

For the third quarter of 2023, Trimble expects to report revenue between \$945 million and \$985 million, GAAP EPS of \$0.20 to \$0.27, and non-GAAP EPS of \$0.56 to \$0.64. The third quarter of 2023 GAAP EPS assumes a tax rate of 18.0 percent and the non-GAAP EPS assumes a tax rate of 17.3 percent. Both GAAP and non-GAAP EPS assume approximately 250 million shares outstanding.

A reconciliation of the non-GAAP measures to the most directly comparable GAAP measures and other information relating to these non-GAAP measures are included in the supplemental reconciliation schedule attached.

### Investor Conference Call / Webcast Details

Trimble will hold a conference call on August 3, 2023 at 8:00 a.m. ET to review its second quarter 2023 results. An accompanying slide presentation will be made available on the "Investors" section of the Trimble website, [www.trimble.com](http://www.trimble.com), under the subheading "Events & Presentations." The call will be broadcast live on the web at <http://investor.trimble.com>. Investors without internet access may dial into the call at (888) 660-6347 (U.S.) or (929) 201-6594 (international). The conference ID is 1043223. The replay will also be available on the web at the address above.

### About Trimble

Dedicated to the world's tomorrow, Trimble is a technology company delivering solutions that enable our customers to work in new ways to measure, build, grow and move goods for a better quality of life. Core technologies in positioning, modeling, connectivity and data analytics connect the digital and physical worlds to improve productivity, quality, safety, transparency and sustainability. From purpose-built products and enterprise lifecycle solutions to industry cloud services, Trimble is transforming critical industries such as construction, geospatial, agriculture and transportation to power an interconnected world of work. For more information about Trimble (NASDAQ: TRMB), visit: [www.trimble.com](http://www.trimble.com).

### Safe Harbor

Certain statements made in this press release are forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and are made pursuant to the safe harbor provisions of the Securities Litigation Reform Act of 1995. These statements include expectations about our future financial and operational results. These forward-looking statements are subject to change, and actual results may materially differ due to certain risks and uncertainties. The Company's results may be adversely affected if the Company is unable to market, manufacture and ship new products, obtain new customers, or effectively integrate new acquisitions. The Company's results would also be negatively impacted due to weakness and deterioration in the US and global macroeconomic outlook, including slowing growth, inflationary pressures and increases in interest rates, which may affect demand for our products and services and increase our costs, adversely affecting our revenues and profitability, supply chain shortages and disruptions, the pace at which our dealers work through their inventory, changes in our distribution channels, adverse geopolitical developments and the potential impact of volatility and conflict in the political and economic environment, including the Russian conflict with Ukraine and its direct and indirect impact on our business, foreign exchange fluctuations, the pace we transition our business model towards a subscription model, the imposition of barriers to international trade, and the impact of acquisitions or divestitures. Any failure to achieve predicted results could negatively impact the Company's revenue, cash flow from operations, and other financial results. The Company's financial results will also depend on a number of other factors and risks detailed from time to time in reports filed with the SEC, including its quarterly reports on Form 10-Q and its annual report on Form 10-K. Undue reliance should not be placed on any forward-looking statement contained herein. These statements reflect the Company's position as of the date of this release. The Company expressly disclaims any undertaking to release publicly any updates or revisions to any statements to reflect any change in the Company's expectations or any change of events, conditions, or circumstances on which any such statement is based.

**FOOTNOTES TO GAAP TO NON-GAAP RECONCILIATION**

This press release includes GAAP financial measures as well as Non-GAAP financial measures, which are not meant to be considered in isolation or as a substitute for comparable GAAP. We believe these non-GAAP financial measures provide useful information to investors and others in understanding our "core operating performance", which excludes (i) the effect of non-cash items and certain variable charges not expected to recur; and (ii) transactions that are not meaningful in comparison to our past operating performance or not reflective of ongoing financial results. Lastly, we believe that our core operating performance offers a supplemental measure for period-to-period comparisons and can be used to evaluate our historical and prospective financial performance, as well as our performance relative to competitors.

The non-GAAP definitions, and explanations to the adjustments to comparable GAAP measures are included below:

**Non-GAAP Definitions**

**Non-GAAP gross margin**

We define Non-GAAP gross margin as GAAP gross margin, excluding the effects of amortization of purchased intangible assets, acquisition/divestiture items, stock-based compensation, deferred compensation, and restructuring and other costs. We believe our investors benefit by understanding our non-GAAP gross margin as a way of understanding how product mix, pricing decisions, and manufacturing costs influence our business.

**Non-GAAP operating expenses**

We define Non-GAAP operating expenses as GAAP operating expenses, excluding the effects of amortization of purchased intangible assets, acquisition/divestiture items, stock-based compensation, deferred compensation, and restructuring and other costs. We believe this measure is important to investors evaluating our non-GAAP spending in relation to revenue.

**Non-GAAP operating income**

We define Non-GAAP operating income as GAAP operating income, excluding the effects of amortization of purchased intangible assets, acquisition/divestiture items, stock-based compensation, deferred compensation, and restructuring and other costs. We believe our investors benefit by understanding our non-GAAP operating income trends, which are driven by revenue, gross margin, and spending.

**Non-GAAP non-operating expense, net**

We define Non-GAAP non-operating expense, net as GAAP non-operating income (expense), net, excluding acquisition/divestiture items, deferred compensation, and restructuring and other costs. We believe this measure helps investors evaluate our non-operating expense trends.

#### **Non-GAAP income tax provision**

We define Non-GAAP income tax provision as GAAP income tax provision, excluding charges and benefits such as net deferred tax impacts resulting from the non-U.S. intercompany transfer of intellectual property, tax law changes, and significant one-time reserve releases upon the statute of limitations expirations. We believe this measure helps investors because it provides for consistent treatment of excluded items in our non-GAAP presentation and a difference in the GAAP and non-GAAP tax rates.

#### **Non-GAAP net income**

We define Non-GAAP net income as GAAP net income, excluding the effects of amortization of purchased intangible assets, acquisition/divestiture items, stock-based compensation, restructuring and other costs, and non-GAAP tax adjustments. This measure provides a supplemental view of net income trends, which are driven by non-GAAP income before taxes and our non-GAAP tax rate.

#### **Non-GAAP diluted net income per share**

We define Non-GAAP diluted net income per share as GAAP diluted net income per share, excluding the effects of amortization of purchased intangible assets, acquisition/divestiture items, stock-based compensation, restructuring and other costs, and non-GAAP tax adjustments. We believe our investors benefit by understanding our non-GAAP operating performance as reflected in a per share calculation as a way of measuring non-GAAP operating performance by ownership in the company.

#### **Adjusted EBITDA**

We define Adjusted EBITDA as non-GAAP operating income plus depreciation expense, cloud computing amortization, and income from equity method investments, net. Other companies may define Adjusted EBITDA differently. Adjusted EBITDA is not intended to purport to be an alternative to net income or operating income as a measure of operating performance or cash flow from operating activities as a measure of liquidity. Adjusted EBITDA is a performance measure that we believe offers a useful view of the overall operations of our business because it facilitates operating performance comparisons by removing potential differences caused by variations unrelated to operating performance, such as capital structures (interest expense), income taxes, depreciation, and amortization of purchased intangibles, and cloud computing costs.

#### **Explanations of Non-GAAP adjustments**

(A) **Amortization of purchased intangible assets.** Non-GAAP gross margin and operating expenses exclude the amortization of purchased intangible assets, which primarily represents technology and/or customer relationships already developed.

(B) **Acquisition / divestiture items.** Non-GAAP gross margin and operating expenses exclude acquisition costs consisting of external and incremental costs resulting directly from merger and acquisition and strategic investment activities such as legal, due diligence, integration, and other closing costs, including the acceleration of acquisition stock options and adjustments to the fair value of earn-out liabilities. Non-GAAP non-operating expense, net, excludes unusual one-time acquisition/divestiture charges, including foreign currency exchange rate gains/losses related to an acquisition, divestiture gains/losses, and strategic investment impairments. These are one-time costs that vary significantly in amount and timing and are not indicative of our core operating performance.

(C) **Stock-based compensation / deferred compensation.** Non-GAAP gross margin and operating expenses exclude stock-based compensation and income or expense associated with movement in our non-qualified deferred compensation plan liabilities. Changes in non-qualified deferred compensation plan assets, included in non-operating expense, net, offset the income or expense in the plan liabilities.

(D) **Restructuring and other costs.** Non-GAAP gross margin and operating expenses exclude restructuring and other costs comprised of termination benefits related to reductions in employee headcount and closure or exit of facilities, executive severance agreements, business exit costs, as well as a \$20 million commitment to donate to the Trimble Foundation that was paid over four quarters.

(E) **Non-GAAP items tax effected.** This amount adjusts the provision for income taxes to reflect the effect of the non-GAAP items (A) - (D) on non-GAAP net income.

(F) **Difference in GAAP and Non-GAAP tax rate.** This amount represents the difference between the GAAP and non-GAAP tax rates applied to the non-GAAP operating income plus the non-GAAP non-operating expense, net. The non-GAAP tax rate excludes charges and benefits such as net deferred tax impacts resulting from a non-U.S. intercompany transfer of intellectual property and significant one-time reserve releases upon statute of limitations expirations.

(G) **GAAP and non-GAAP tax rate percentages.** These percentages are defined as GAAP income tax provision as a percentage of GAAP income before taxes and non-GAAP income tax provision as a percentage of non-GAAP income before taxes.

### **OTHER KEY METRICS**

#### **Annualized Recurring Revenue**

In addition to providing non-GAAP financial measures, Trimble provides an ARR performance measure in order to provide investors with a supplementary indicator of the value of the Company's current recurring revenue contracts. ARR represents the estimated annualized value of recurring revenue. ARR is calculated by taking our subscription, maintenance and support, and recurring transaction revenue for the current quarter and adding the portion of the contract value of all of our term licenses attributable to the current quarter, and dividing that sum by the number of days in the quarter and then multiplying that quotient by 365. ARR should be viewed independently of revenue and deferred revenue as it is a performance measure and is not intended to be combined with or to replace either of those items.

#### **Organic Annualized Recurring Revenue**

Organic annualized recurring revenue refers to annualized recurring revenue excluding the impacts of (i) foreign currency translation, and (ii) acquisitions and divestitures.

#### **Organic Revenue**

Organic revenue refers to revenue excluding the impacts of (i) foreign currency translation, and (ii) acquisitions and divestitures.
