

Social Causes & Awards

ESG

Green Brick Partners builds communities with lasting value and believes our commitment to pursuing Environmental, Social, and Governance (ESG) goals can be achieved in conjunction with providing superior, long-term returns for our investors, stakeholders, residents, and the cities in which we build. Our Board and management are committed to integrating sustainable business practices to create lasting results that benefit all our stakeholders.

GIVING BACK

At Green Brick Partners, we don't just develop quality communities, we grow alongside them. Because of our deep connections to the communities in which we build, we strive to give back in any way we can. All Green Brick employees qualifying charitable contributions are matched dollar for dollar up to \$2,000 per year. In addition, every employee at Green Brick Partners is allowed two paid days per year where they can volunteer. As a company, we strive to donate to organizations that strengthen the economy and health of the communities in which we do business. Some of the charitable organizations that we have had the privilege of working with in the past include:

Social Spotlight

Trophy Signature Homes & Operation Finally Home

Operation Finally Home is a Texas-based nonprofit that provides mortgage-free homes, home modifications and transitional housing to wounded, ill and injured military veterans, first responders and their families in honor of their service and sacrifice to country and community. Trophy Signature Homes partnered with Operation Finally Home and MA Partners to build a brand-new, mortgage-free home for U.S. Army Specialist John Endsley, his wife, and their five children. To add an extra special touch to their home, Trophy invited employees, city council members, trades, and vendors to write a few “notes of love” at the site of the Endsley family’s home. The family was able to tour their new home and take in the kind words written by friends and the team who is building their new home.

The Providence Group & St. Jude of GA

The St. Jude Dream Home® Giveaway program was created in 1991 by Dr. Donald Mack. The first St. Jude Dream Home was constructed in Shreveport and raised \$160,000 for St. Jude. Today, the St. Jude Dream Home giveaway is one of the largest single-event fundraisers for St. Jude nationwide. The Providence Group was honored to partner with St. Jude Children's Research Hospital to build the 2023 St. Jude Dream Home® for the first time in Atlanta, GA. The project was able to raise over \$1.5 million for St. Jude Children's Research Hospital, a record for the program. The Providence Group is partnering again with St. Jude Children's Research to build the 2024 St. Jude Dream Home. Green Brick Partners will donate the lot on which the St. Jude Dream Home will be built. The Providence Group and its trade partners will provide at their own expense all construction and ancillary marketing costs. The Providence Group have spent the past 20+ years successfully building elevated communities and neighborhoods throughout Atlanta, and it is proud to join our community of giving back and paying it forward.

Green Brick Partners, CB JENI, Normandy, Southgate Homes & Habitat for Humanity

Habitat for Humanity works together with families, local communities, volunteers, and partners from around the world so that more people are able to live in affordable and safe homes. The organization works in more than 70 countries and have helped more than 39 million people improve their living conditions since 1976. Green Brick and its Dallas builders have sponsored and participated in multiple projects in Collin County, a community that we have deep roots in. We are extremely proud to support good causes that make real changes for families in need, and we will continue promoting philanthropy to make our communities stronger.

Our Team Members

Attracting, retaining, and building talent is critical in our business. We continue to recruit talented team members that exhibit superior emotional intelligence. This focus on a staff that places a strong emphasis on communication and navigating a fast-paced environment empathetically and judiciously enables us to operate effectively and efficiently each day. We seek to establish a supportive culture that fosters a strong sense of ownership and a continuous drive to excel. Our goal is to not just empower our team members with the tools needed to succeed but to create a community that focuses on taking ownership of one's work. Our culture celebrates individual success, primes our employees for growth, and is critical in maintaining our competitive edge over our peers. We pride ourselves on putting our people first.

ENGAGEMENT, TRAINING, AND LEADERSHIP

We understand the value of continuous learning and development at all levels of employment and seek to create an environment that fosters a drive to grow. As a result, our employees receive generous tuition reimbursement for attending college and professional development classes. Additionally, our employees participate in our annual information security training program, ensuring higher security awareness and serving as a social responsibility measure.

EMPLOYEE HEALTH AND WELLNESS

To be successful as a company it is critical that our employees' physical and mental wellbeing is at the forefront of our decisions. Especially in unprecedented times, we have focused our attention on providing flexibility to ensure our team members remain healthy and happy. A few of our health and wellness initiatives include providing flexible work hours and remote work, fitness center memberships, and maternity leave benefits.

BRETT WINTERS AWARD

Each December one or two team members that truly embody Green Brick Partners' values are selected to be recipients of the Brett Winters Award. The award is named in honor of Brett Winters, a longtime CFO for CB JENI and Normandy Homes who passed away in 2017. Mr. Winters not only helped take the group from a small builder to one of the largest townhome builders in Dallas-Fort Worth, but exemplified the type of enthusiastic, ethical leadership that we strive to embody and maintain. Recipients are awarded the Brett Winters trophy and a \$10,000 bonus. In addition to honoring his memory through the award, we fully funded a college endowment in the amount of \$250,000 for his three children. We intend to continue this honored tradition and seek to continue Brett's legacy of excellence for many years to come.
