About Agenus

Agenus is a biopharmaceutical company focused on immuno-oncology with a portfolio of checkpoint modulators and anti-cancer vaccines. The company's three platforms include checkpoint modulators, heat shock protein based vaccines, and adjuvants. The company's proprietary discovery engine Retrocyte Display® generates high quality therapeutic antibody drug candidates quickly using a high-throughput approach incorporating full-length IgG format human antibody libraries expressed in mammalian B-lineage cells. A portfolio of checkpoint modulator programs is advancing in preclinical development, several heat shock protein vaccines are in Phase 2 studies, and the QS-21 Stimulon® adjuvant platform is extensively partnered with GlaxoSmithKline and Janssen and includes several candidates in late-stage trials. Among Agenus and its partners, 23 programs are in clinical development. For more information, please visit www.agenusbio.com, or connect with the company on Facebook, LinkedIn, Twitter and Google+.
