SHARK BEAUTY REDEFINES THE AT-HOME FACIAL WITH SHARK™ FACIALPRO™ GLOW AND SHARK™ DEPUFFI™

The Shark™ Facial Pro™ Glow is clinically tested to clear impurities from pores to reduce

pore size and visibility in just one use<sup>1</sup>. It features a dual-pump system and hydro-abrasion tips to gently exfoliate while infusing the skin with moisture to increase hydration by +128% in 10 minutes<sup>1</sup>. In just five simple steps, extract, hydrate and depuff at home for a radiant glow.

Included within the system are **Derm Detox** AHA + BHA Exfoliating Gel and **Hydro Infuse** BHA Hydrator, two dermatologist-tested formulas developed in a Korean lab specifically for the Shark™ Facial Pro™ Glow routine. Derm Detox features a combination of Glycolic Acid and Salicylic Acid to support spa-level exfoliation for clearer pores, while Hydro Infuse utilizes Hyaluronic Acid and a firming peptide complex to help infuse the skin with moisture for

a more hydrated complexion.

“With Shark™ FacialPro™ Glow and DePuffi™, we set out to completely reimagine the facial experience, with Shark’s first at-home facial that gives spa-level results in the palm of your hand,” said Shark Beauty™ CMO Kleona Mack. “Powered by breakthrough technology, it delivers visible, high-level results in just 10 minutes – no appointment needed. It’s self-care made smarter – to power on your skincare.”

The Shark™ DePuffi™, available as part of the Shark™ FacialPro™ Glow system or for purchase separately, uses InstaChill™ and InstaHeat™ technologies with six temperature-controlled levels to achieve a sculpted look, depuff, and boost circulation with massage for a radiant glow.

- InstaChill™ Technology: Massage in slow upwards strokes to contour face and reduce puffiness, or under your eyes for an instantly refreshed and awakened look.
- InstaHeat™ Technology: Massage in slow outward strokes to boost circulation for more radiant skin or use under eyes to help calm and relax.

## The 5-Step At-Home FacialPro Glow Cleanse System

1. Prep: Use the Shark™ DePuffi™ attachment in InstaHeat™ to prep skin for extraction by softening skin’s surface
2. Cleanse: Prepare skin with the Derm Detox AHA + BHA Exfoliating Gel, a 3-minute treatment mask to begin the exfoliation process and loosen dead skin cells.
3. Extract: Fill the clean tank with water and start the extraction process to exfoliate and cleanse the complexion.
4. Hydrate: Empty the clean tank and fill with the Hydro Infuse BHA Hydrator to infuse hydration while continuing extraction, leaving skin with a radiant, hydrated glow.
5. Depuff: Use the Shark™ DePuffi™ attachment in InstaChill™ to help boost circulation and provide a sculpted, defined look.

The proof is in the tank— watch as dirt, oil, and dead skin are visibly extracted, revealing a cleaner, healthier complexion.
