AMERICAN AIRLINES CUSTOMERS GAIN NEW NON-STOP ROUTES TO CANCUN

FORT WORTH, Texas – American Airlines will offer new access to Cancun, Mexico - one of Mexico's most popular destinations - when it adds new service from four U.S. cities in 2016. The new seasonal service to Cancun International Airport (CUN) will operate on Saturdays from Raleigh-Durham International Airport (RDU), Pittsburgh International Airport (PIT), Nashville International Airport (BNA) and Kansas City International Airport (MCI). We expect that customers may begin booking flights for these new routes in mid-November once governmental approvals have been obtained, and service will start on March 5, 2016.

"The addition of these four new routes gives our customers 12 locations to fly non-stop to Cancun," said Art Torno, senior vice president – International and Cargo. "As the premier carrier to Mexico, the Caribbean and Latin America with flights to 85 destinations, these additions highlight our commitment to providing our customers with a network that is second to none."
