5 for 5
Celebrating five years of merger milestones

American Airlines

Washington, D.C.

In Dec. 2013, American Airlines and US Airways created the largest airline in the world. And we've been busy ever since.

American is the first and longest-serving air carrier out of Washington Reagan Airport (DCA) and is the airline of choice for travelers to and from our nation's capital. Take a look at a few of the things we've been up to at DCA over the last five years.

1 Record passenger growth. **A new 14-gate concourse** will replace busing operations at Gate 35X and will increase customer comfort and convenience. The project is expected to be completed in 2021.

2 More nonstop options for travelers from DCA. Since the merger, **we've added six new destinations out of DCA,** including Tallahassee, Florida; Little Rock, Arkansas; and Montgomery, Alabama.

3 After completing nearly **$18 million in facility and equipment upgrades,** American reopened DCA's historic Hangar 4, home to 150 team members. The hangar upgrades are tied to preparations for DCA's new regional concourse.

4 It's been our honor – 600 times. In 2017, **we celebrated our 600th Honor Flight.** To date, the DCA team has welcomed more than 100,000 veterans to Washington, D.C. Each arrival receives a water canon salute, gate décor and a celebratory welcome.

5 Going for Gate. This year, **we acquired an additional gate – Gate 32 –** which allowed us to improve our operational efficiency and customer experience. DCA has the highest gate utilization rate of any of American's hubs and gateways.

STRATEGIC OBJECTIVE:
Create a World-Class Customer Experience
