5 for 5
Celebrating five years of merger milestones

American Airlines

Premium Experience

In Dec. 2013, American Airlines and US Airways created the largest airline in the world. And we've been busy ever since.

Since then, American has upped the game for premium travelers. Take a look at a few of the things we've added to the premium travel experience over the last five years.

1 We love flying our Flag(ship). Since our merger, **American has introduced four Flagship Lounges and three Flagship First Dining locations.** Since we love fives, we're opening the fifth Flagship Lounge early next year.

2 Hard hats on: **We've renovated or opened 20 new Admirals Clubs**, providing customers a modern, updated space to relax, fuel up and stay connected before their journeys.

3 We've taken off to Lie-flat Land by **equipping our entire widebody fleet with lie-flat seats in premium cabins**. That's more than 6,000 seats for you to sit back – or lie back – and relax.

4 We're fashion-forward in the forward cabin. American worked with Cole Haan to design **more than 10.5 million amenity kits for customers** to make their journey more enjoyable.

5 When Mom told us to make our beds, we listened. **We launched an innovative partnership with sleep experts Casper** to design customer bedding in our premium cabins for a more restful journey.

We've teamed up with Casper to get you your best flight's sleep.

STRATEGIC OBJECTIVE:
Create a World-Class Customer Experience
