Reconciliation of GAAP Financial Information to Non-GAAP Financial Information

American Airlines Group Inc. (the Company) sometimes uses financial measures that are derived from the condensed consolidated financial statements but that are not presented in accordance with GAAP to understand and evaluate its current operating performance and to allow for period-to-period comparisons. The Company believes these non-GAAP financial measures may also provide useful information to investors and others. These non-GAAP measures may not be comparable to similarly titled non-GAAP measures of other companies, and should be considered in addition to, and not as a substitute for or superior to, any measure of performance, cash flow or liquidity prepared in accordance with GAAP. The Company is providing a reconciliation of reported non-GAAP financial measures to their comparable financial measures on a GAAP basis.

The tables below present the reconciliations of the following GAAP measures to their non-GAAP measures:

- Pre-Tax Income (Loss) (GAAP measure) to Pre-Tax Income (Loss) Excluding Net Special Items (non-GAAP measure)
- Pre-Tax Margin (GAAP measure) to Pre-Tax Margin Excluding Net Special Items (non-GAAP measure)
 Net Income (Loss) (GAAP measure) to Net Income (Loss) Excluding Net Special Items (non-GAAP measure)
- Basic and Diluted Earnings (Loss) Per Share (GAAP measure) to Basic and Diluted Earnings (Loss) Per Share Excluding Net Special Items (non-GAAP measure)
- Operating Income (Loss) (GAAP measure) to Operating Income (Loss) Excluding Net Special Items (non-GAAP measure)

Management uses these non-GAAP financial measures to evaluate the Company's current operating performance and to allow for period-to-period comparisons. As net special items may vary from period-to-period in nature and amount, the adjustment to exclude net special items allows management an additional tool to understand the Company's core operating performance.

Additionally, the tables below present the reconciliations of total operating costs (GAAP measure) to total operating costs excluding net special items and fuel (non-GAAP measure) and total operating costs per ASM (CASM) to CASM excluding net special items and fuel. Management uses total operating costs excluding net special items and fuel in expecial items and fuel to evaluate the Company's current operating performance and for period-to-period comparisons. The price of fuel, over which the Company has no control, impacts the comparability of period-to-period financial performance. The adjustment to exclude fuel and net special items allows management an additional tool to understand and analyze the Company's non-fuel costs and core operating performance.

FOOTNOTES:

The 2021 second quarter mainline operating special items, net principally included \$1.3 billion of Payroll Support Program (PSP) financial assistance. The 2021 six month period mainline operating special items, net principally included \$3.2 billion of PSP financial assistance, offset in part by \$168 million of salary and medical costs associated with certain team members who opted into voluntary early retirement programs offered as a result of reductions to the Company's operation due to the COVID-19 pandemic.

⁽¹⁾ The 2022 six month period mainline operating special items, net principally included a non-cash impairment charge to write down the carrying value of the Company's retired Airbus A330 fleet to the estimated fair value due to current market conditions for certain used aircraft. The Company retired its Airbus A330 fleet in 2020 as a result of the decline in demand for air travel due to the COVID-19 pandemic.

⁽²⁾ The 2021 second quarter regional operating special items, net principally included \$167 million of PSP financial assistance. The 2021 six month period regional operating special items, net principally included \$410 million of PSP financial assistance, offset in part by a \$27 million non-cash impairment charge to write down regional aircraft resulting from the retirement of the remaining Embraer 140 fleet earlier than planned.

⁽⁹⁾ Principally included mark-to-market net unrealized gains and losses associated with certain equity and other investments as well as non-cash charges associated with debt refinancings and extinguishments.
