

# Travel Alert: Tropical Storm Nicole to Impact Airports in the Bahamas and Florida

11/8/2022

FORT WORTH, Texas — American Airlines continues to monitor the track of Tropical Storm Nicole, which is expected to impact airports in the Bahamas and Florida.

American has issued a **travel alert** for 20 airports in the eastern Caribbean and Florida, allowing customers whose travel plans are affected by Tropical Storm Nicole to rebook without change fees. Customers can reschedule their travel on **aa.com** or by contacting Reservations at 800-433-7300 in the United States or Canada.

In order to assist customers who have chosen to evacuate via air, American added reduced, last-minute fares for cities that will be impacted by Tropical Storm Nicole.

If a customer chooses not to fly to/from an airport covered by the current waiver, American will waive change fees for future travel. Customers are also encouraged to check the status of their flight on **aa.com**.

If an American flight has been canceled or excessively delayed, customers may cancel their itinerary and **request a refund by visiting American's website**. Customers who booked through a travel agent should contact their travel agency directly.

American will continue tracking this system with customers' and team members' safety top of mind.
