

NEWS RELEASE

American Airlines and TSA expand TSA PreCheck Touchless ID to all of American's hub airports

2026-04-22

Eligible AAdvantage® members can now enjoy a faster, touchless security experience across the airline's network

FORT WORTH, Texas — American Airlines, in partnership with the Transportation Security Administration (TSA), today announced TSA PreCheck® Touchless ID is available at all of American's hub airports, giving eligible AAdvantage® members a more streamlined, touchless experience at TSA security checkpoints.

Customers traveling through Charlotte (CLT), Chicago (ORD), Dallas-Fort Worth (DFW), Los Angeles (LAX), Miami (MIA), New York (JFK and LGA), Philadelphia (PHL), Phoenix (PHX) and Washington, D.C. (DCA), can verify their identity using secure facial-matching technology without presenting a physical ID or boarding pass. In addition to American's hubs, the program is available **at 60 U.S. airports** where the airline operates.

A FASTER, MORE SEAMLESS
CHECKPOINT EXPERIENCE

TSA PreCheck® Touchless ID uses advanced technology to compare a customer's live image to photos they previously provided to the U.S. government, such as those in a passport, Global Entry or a visa. Once the identity is confirmed, customers can move through security more quickly and access an expedited checkpoint lane.

"Expanding TSA PreCheck® Touchless ID across our hub network is an important step in our commitment to creating a more seamless and efficient travel experience," said American's Chief Operating Officer David Seymour.

“Our customers value speed, convenience and choice, and this partnership with TSA delivers all three.”

A SECURE, VOLUNTARY PROGRAM

Participation in TSA PreCheck® Touchless ID is voluntary, and TSA manages all biometric data. Eligible AAdvantage® members who choose to participate can expect:

- A faster, touchless identity verification process
- Access to an expedited security lane
- A smoother, more predictable checkpoint experience

To opt in to TSA PreCheck® Touchless ID with American, customers can:

- Navigate to the “Information and password” section of the account settings in their AAdvantage® profile on the American app or website.
- Scroll to “Secure traveler,” and save both their Known Traveler Number (KTN) and valid passport details.
- Verify that the full name, date of birth and passport number in their AAdvantage® profile matches the same information on their passport.
- Check the box to opt in to “TSA PreCheck® Touchless ID.”

MORE ENHANCEMENTS COMING

American and the TSA will continue working together to expand the program to additional airports in the months ahead, with a focus on delivering a consistent, streamlined experience across the travel journey.

About American Airlines Group (NASDAQ: AAL)

American Airlines is a premium global airline connecting more of the U.S. to the world. With roots tracing back to an air mail carrier in the Midwestern United States in 1926, American now operates more than 6,000 daily flights to more than 350 destinations in more than 60 countries and serves more than 200 million customers annually. Powered by a proud and talented team of 130,000 aviation professionals, American’s team lives out the airline’s purpose of caring for people on life’s journey every day.

The world’s largest airline proudly celebrates its centennial year in 2026, reaching a milestone that reflects a century of innovation and the Forever ForwardSM spirit that changed the industry and the world. American introduced the first scheduled air cargo service, the first airport lounge and the first airline loyalty program and continues to reinvent the customer experience today. The airline is also a founding member of the oneworld

alliance, whose members serve more than 900 destinations around the globe.
