American Airlines and its partners raise more than \$1.6 million to benefit the Cystic Fibrosis Foundation

2026-03-24

FORT WORTH, Texas — American Airlines and its partners joined forces once again to benefit the **Cystic Fibrosis (CF) Foundation** at the 41st Celebrity Ski event in Beaver Creek, Colorado. The event brought together American team members, partners and supporters for a weekend of fundraising and community engagement on the slopes supporting efforts to find a cure for cystic fibrosis.

Over the years, American has raised more than \$50 million to help fund groundbreaking research and care for people living with CF, making a lasting impact on the fight against the disease.

"For decades, our team members, partners and supporters have come together at this event to drive meaningful impact," said American's Chief Marketing Officer Caroline Clayton. "Supporting organizations like the Cystic Fibrosis Foundation reflects our commitment to making a meaningful difference in the lives of our customers beyond travel, and we're proud to help advance research and care for those impacted by CF."

This year's event welcomed more than 425 attendees and volunteers, including sports and entertainment celebrities such as Carli Lloyd, Alexi Lalas and Mark Ingram. Participants also enjoyed a live performance presented by Warner Records, featuring Michael Marcagi.

"For 41 years, American Airlines has stood alongside the CF Foundation as our longest running corporate supporter, raising more than \$50 million to advance cystic fibrosis research and care," said Michael Boyle, MD,

President and CEO of the CF Foundation. "That generosity has helped drive progress that is enabling people with CF to live longer than ever before."

Skiers prepare to hit the slopes at the start line.

The CF Foundation leads the global effort to find a cure for CF, a genetic disorder that affects the lungs, pancreas and other organs. The Foundation funds a broad portfolio of research initiatives aimed at developing new treatments and ultimately curing the disease.

American has helped drive key CF Foundation breakthroughs, from supporting the annual Celebrity Ski event to donating hundreds of millions of AAdvantage® miles supporting fundraising efforts across the country.

About American Airlines Group (NASDAQ: AAL)

American Airlines is a premium global airline connecting more of the U.S. to the world. With roots tracing back to an air mail carrier in the Midwestern United States in 1926, American now operates more than 6,000 daily flights to more than 350 destinations in more than 60 countries and serves more than 200 million customers annually. Powered by a proud and talented team of 130,000 aviation professionals, American's team lives out the airline's purpose of caring for people on life's journey every day.

The world's largest airline proudly celebrates its centennial year in 2026, reaching a milestone that reflects a century of innovation and the Forever ForwardSM spirit that changed the industry and the world. American introduced the first scheduled air cargo service, the first airport lounge and the first airline loyalty program and continues to reinvent the customer experience today. The airline is also a founding member of the oneworld alliance, whose members serve more than 900 destinations around the globe.

About the Cystic Fibrosis Foundation

The Cystic Fibrosis Foundation is the world's leader in the search for a cure for cystic fibrosis. The Foundation funds more CF research than any other organization, and nearly every CF drug available today was made possible because of Foundation support. Based in Bethesda, Md., the Foundation also supports and accredits a national care center network that has been recognized by the National Institutes of Health as a model of care for a chronic disease. The CF Foundation is a donor-supported nonprofit organization. For more information, visit cff.org.
