# How AAdvantage members can support the National Park Foundation

2026-07-01

FORT WORTH, Texas — As the United States prepares to mark its 250th anniversary, American Airlines is proud to help connect customers to the history, beauty and spirit that define the nation.

In celebration of its partnership with the National Park Foundation (NPF), American is inviting AAdvantage® members to **donate** miles to the airline's Miles for Our Planet program, which helps fund preservation efforts while inspiring more people to explore the country's iconic natural wonders.

All contributions throughout the month of July will benefit NPF and its work to protect and enhance national parks.

American team members volunteer at Acadia National Park to support ongoing preservation efforts.  
Yosemite National Park

Since becoming the first official airline partner of the NPF in 2021, American has expanded access to the outdoors for travelers across the country. With more than 500 **flights** to destinations near national parks — including Joshua Tree, the Grand Canyon and Glacier National Park — the airline makes it easier than ever to experience these landscapes and the stories they hold.

"As our country approaches its 250th anniversary, there's no better way to reflect on the American story than by experiencing the places that have shaped it," said American's Chief Marketing Officer Caroline Clayton. "National parks are some of our greatest treasures, and we're proud to partner with the National Park Foundation to help more people experience them."

Travelers can also participate in the NPF's summer sweepstakes, **Adventure Awaits**, for a chance to win 500,000

AAdvantage® miles and \$10,000 cash from Forbright® Bank to plan a trip of a lifetime. Visit the **National Park Foundation website** to learn more.

About American Airlines Group (NASDAQ: AAL)

American Airlines is a premium global airline connecting more of the U.S. to the world. With roots tracing back to an air mail carrier in the Midwestern United States in 1926, American now operates more than 6,000 daily flights to more than 350 destinations in more than 60 countries and serves more than 200 million customers annually. Powered by a proud and talented team of 130,000 aviation professionals, American's team lives out the airline's purpose of caring for people on life's journey every day.

The world's largest airline proudly celebrates its centennial year in 2026, reaching a milestone that reflects a century of innovation and the Forever Forward<sup>SM</sup> spirit that changed the industry and the world. American introduced the first scheduled air cargo service, the first airport lounge and the first airline loyalty program and continues to reinvent the customer experience today. The airline is also a founding member of the oneworld alliance, whose members serve more than 900 destinations around the globe.
